Summary

MERN Stack Developer with hands-on experience in React.js, TypeScript, JavaScript, Node.js, Express.js, MongoDB, and REST APIs. Skilled in developing responsive web applications, reusable UI components, secure authentication, CRUD operations, API integration, and full-stack application development using the MERN stack.

Education

Integral University

Bachelor of Technology (Computer Science)

CGPA: 7.1 / 10

2024

Work Experience

Web Developer Intern — APV Technologies Pvt. Ltd., Lucknow

Nov 2024 – May 2025

- Developed responsive web applications using React.js with reusable components, improving UI consistency and reducing development effort.
- Built dynamic forms with validation, routing, and REST API integration using React.js, enhancing user experience and form completion.
- Integrated REST APIs using Axios and Fetch API for seamless frontend-backend communication.
- Developed backend APIs using Node.js and Express.js, enabling secure communication between frontend and MongoDB.
- Implemented JWT-based authentication and authorization for secure user access.
- Designed and managed MongoDB collections, implemented CRUD operations, and handled backend data management.

Projects

Video Library Management System

GitHub

- Developed a full-stack Video Library application using React.js, TypeScript, Node.js, Express.js, and MongoDB.
- Built Admin and User modules with secure authentication and role-based access.
- Implemented video management features including Add, Edit, Delete, Search, Filter, and Sort using REST APIs.
- Integrated MongoDB with Express.js APIs for CRUD operations and backend data management.
- Deployed the frontend on Vercel and managed source code using GitHub.

Portfolio Website

- Developed a responsive Personal Portfolio Website using React.js, JavaScript, HTML5, CSS, and Vite.
- Built reusable React components for Home, About, Skills, Projects, and Contact sections.
- Implemented responsive layouts and modern user interface for desktop and mobile devices.
- Showcased technical skills, projects, and contact information through a single-page application.
- Focused on reusable component-based architecture and responsive web design for an enhanced user experience.

Skills

Frontend: React.js, Angular, TypeScript, JavaScript, HTML5, CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs
Database: MongoDB
Tools: Git, GitHub, Postman, VS Code, Visual, Vercel
