Summary

MERN Stack Developer with hands-on experience in building responsive full-stack web applications using React.js, TypeScript, JavaScript, Node.js, Express.js, MongoDB, and REST APIs. Proficient in CRUD operations, authentication, API integration, reusable component development, and modern responsive UI design.

Education

Integral University

2024

Bachelor of Technology (Computer Science)

CGPA: 7.1 / 10

Work Experience

Web Developer Intern — APV Technologies Pvt. Ltd., Lucknow

Nov 2024 – May 2025

- Developed responsive web applications using React.js with reusable, component-based architecture, improving UI consistency and maintainability.
- Built dynamic forms with validation, routing, and REST API integration using React.js, Axios, and Fetch API.
- Developed backend REST APIs using Node.js and Express.js for seamless frontend-backend communication.
- Implemented JWT-based authentication and authorization for secure user access.
- Designed MongoDB collections and implemented CRUD operations for efficient data management.
- Collaborated on Full Stack MERN applications by integrating React.js frontend, Express.js APIs, and MongoDB database.

Projects

Employee Management System

GitHub — Live Demo

- Developed a Full Stack MERN Employee Management System using React.js, TypeScript, Node.js, Express.js and MongoDB.
- Implemented CRUD operations, Search, Department Filter, Pagination and REST API Integration.
- Built reusable React components and integrated Express.js APIs with MongoDB.
- Developed a responsive dashboard UI for efficient employee management.

Video Library Management System

GitHub — Live Demo

- Developed a Full Stack MERN Video Library application using React.js, TypeScript, Node.js, Express.js and MongoDB.
- Built separate Admin and User modules with Authentication and Authorization.
- Implemented Video CRUD operations, Search, Category Filter, Comments, Likes and Share functionality.
- Designed a responsive user interface and integrated REST APIs with MongoDB.

Appointment Management System

GitHub — Live Demo

- Developed a responsive Appointment Management application using React.js, JavaScript, Bootstrap and JSON Server.
- Implemented CRUD operations, Search functionality and Date Picker integration.
- Connected the frontend with JSON Server and built reusable React components.
- Designed a modern responsive dashboard for appointment management.

Skills

Frontend: React.js, TypeScript, JavaScript, HTML5, CSS, Bootstrap
Backend: Node.js, Express.js, REST APIs
Database: MongoDB
Tools: Git, GitHub, Postman, VS Code, Vercel
